ANCHORING AND MOORING EQUIPMENT

Mushroom Anchors

Mushroom anchors are an economical solution for light-weight boats. The wide-area mushroom cup provides sufficient holding power in mud and weed bottoms

- Gray cast iron
- Large, steel eye
- Available coated with aluminum-painted finish or black PVC coated finish

Description		Bulk Packaging*	Aftermarket Packaging
Aluminum - Painted	8 lbs.	9941-1	—
	10 lbs.	9942-1	—
	15 lbs.	9943-1	—
Black PVC-coated	8 lbs.	9941B1	—
	10 lbs.	9942B1	—
	15 lbs.	9943B1	—

Navy Anchors

Navy anchors combine weight with flukes to dig in and hold firmly in sand and mud. The reverse action of the shank allows quick retrieval of a fouled anchor. High-quality gray iron casting, available with aluminum-painted or black PVC-coated finish.

Description		Bulk Packaging*	Aftermarket Packaging
Aluminum - Painted	10 lbs.	9933-1	—
	15 lbs.	9934-1	—
	20 lbs.	9935-1	—
Black PVC-coated	10 lbs.	9933B1	—
	15 lbs.	9934B1	—
	20 lbs.	9935B1	—

River Anchors, Cast

River anchors catch and hold river bottoms where mud, rocks, stumps, and brush are present. Flukes act like a grappling hook to snag rocks or other objects. Gray cast iron with a large, steel eye and black PVC-coated or painted finish.

Description		Bulk Packaging*	Aftermarket Packaging
Aluminum - Painted	8 lbs.	9944-1	—
	12 lbs.	9945-1	—
	15 lbs.	9948-1	—
	18 lbs.	9946-1	—

	12 lbs.	9945B1	—
	15 lbs.	9948B1	—
	18 lbs.	9946B1	—

* All Bulk Packed anchors include ID label with UPC number/bar code.

PENETRATING FLUKE ANCHORS

Penetrating fluke anchors dig into mud, sand, or gravel, and stow flat. Pivoting flukes rotate downward into bottom. Excellent weight-to-holding power ratio, compared to cast anchors. All Attwood penetrating anchors are manufactured of hot dip galvanized steel for corrosion-resistance and strength. The assembly is arc-welded steel that maintains consistent fluke-to-shank angles, ensuring quick penetration and a firm hold.

Solid Shank Penetrating Anchors

These anchors have a solid shank for durability and strength.

Grapnel Folding Anchors

Ideal four-fluke anchor for personal watercraft (PWC), small craft, and dinghies. Heavily galvanized, malleable iron. Folds up easily for storage. Lockable in opened or closed position.

Description	Bulk Packaging*	Aftermarket Packaging**
3 lbs.	11964-1	—
5 lbs.	11966-1	—
7 lbs.	11968-1	—

Grapnel Anchor System

3.5 lb anchor will hold your PWC, canoe, dinghy, kayak or float tube in mud, sand, gravel, and rock. Includes 25 ft. of rope, marker buoy, giant snap hook, anchor and a durable nylon storage case that protects your boat from scratches.

Description	Bulk Packaging*	Aftermarket Packaging**
Grapnel Anchor System	—	11969-4

* All Bulk Packed anchors include ID label with UPC number/bar code.
-4 = Individual Carton

Anchor Chains

Anchor lead chain for use on penetrating anchors to hold down the shank so anchor lies flat. Increases holding strength, especially in strong currents, high winds, and coastal waters. Protects line from chafing on sharp rocks. These anchor chains include a welded, oversized link on each end for easy installation and anchor attachment. PVC-coated models protect against hull and deck abrasions.

Description	Dimensions	Bulk Packaging	Aftermarket Packaging**
Hot dip galvanized	1/4" x 4'	—	13752-7
Hot dip galvanized with 2 shackles	1/4" x 4'	—	13753-7
PVC-coated	1/4" x 4'	—	13762-7
	5/16" x 5'	—	13764-4

Shackles

Bow-style shackles connect anchor, chain, and components together. Allow thimble to swivel when anchor gear is in constant motion. Hole in clevis pin to secure with safety wire. Available in economical galvanized steel for freshwater or formed Stainless Steel for strength and corrosion-resistance.

Anchor Rein II™ Anchor Lift

Provides 32' of retractable, 1/4" braided, nylon anchor line neatly spooled on a spring-loaded reel. The entire reel mechanism is concealed in a protective canister which installs easily beneath the deck or gunwale, leaving only the Perma-Plated ZAMAK handle and stainless steel line ring exposed. When it's not in use, the handle serves as a convenient cleat. Loosen the handle to unreel the line, then tighten the handle to stop and lock the line at any point. Can also be used with a snap hook to tie-off on brush or timber.

Description	Max. Hull Thickness	Installation Hole Size	Bulk Packaging	Aftermarket Packaging
Anchor Rein II™	1"	1/2"-dia.	1025-1	1025-7

"Lift 'n Lock"™ Anchor Control

Easy-to-use anchor lift and pulley system supports anchors up to 20 pounds with 1/2" diameter line (sold separately).

Deluxe Anchor Control

- High-impact, reinforced nylon
- Stainless Steel shafts
- Easy pull-up, lock, and release

Standard Anchor Control

- Economical zinc-plated, steel anchor lift
- Nylon pulley system
- Steel sheave controls anchor from any position

Description	Bulk Packaging	Aftermarket Packaging**
Deluxe—Anchor Lift 'n Lock™	—	13702-4
Standard—Anchor Lift 'n Lock™	—	13700-7

Anchor Lift System

This convenient system drops the anchor at the turn of a button and stores it in the anchor mount housing when not in use. Constructed of heavy gauge steel with a durable powder coated finish and mounts on the bow or stern corners of most boats. Features self-lubricating nylon wheels. Capacity for 100 ft. of 3/16" line. (Anchor Line and Pulley System sold separately)

MARINE ROPES & CORDAGE

Attwood offers a complete line of anchor and mooring products with the premium performance and quality that boaters have come to expect. Our rope products are packaged to look great, while meeting the sustainability requirements demanded by our retail customers.

ROPE MATERIALS

NYLON

Nylon is recognized in the marine industry for its inherent strength, durability and versatility. Its elasticity allows it to manage the sudden shock loads that would break ropes constructed from other materials, making it a leading choice for anchor and dock lines. Nylon is also abrasion resistant and will last much longer than natural fiber ropes. Made from multifilament fibers that are light and heat stabilized, nylon rope is also resistant to rot, oils, gasoline, grease, marine growth and most chemicals.

Benefits

- Strength
- Elasticity enables stretching and reduced breakage
- Resistant to UV light, rot, abrasion, mildew, oils, gasoline and marine growth
- High wet strength

POLYPROPYLENE

Polypropylene offers high strength-to-weight performance and is available in many construction methods using monofilament fibers (smooth velvety feel) and multifilament fibers. Both fiber types are UV stabilized to provide resistance against fading and degradation. Waterproof polypropylene ropes float and are also resistant to rot, oils, gasoline and most chemicals.

Benefits

- Economical and versatile
- Resistant to UV light, rot, abrasion, mildew, oils, gasoline and marine growth
- Floats

ATTWOOD ROPE CONSTRUCTION TYPES

Twisted

- Splicable
- Economical construction
- The most common construction type for general purpose rope

Solid Braid

- Stays round
- Resist rotating under load
- Strong, soft and light weight construction
- Ideal for use in pulleys, guides & blocks
- Resist unraveling when cut

Double Braid

- Braid over braid construction (two ropes) combined into one rope
- Splicable
- Does not hockle or kink or rotate underload
- Excellent shock absorbtion and elasticity

Diamond Braid

- High quality construction
- Tight locking interlacing of yarns
- Stiffer than solid braided rope

Hollow Braid

- Diamond braid construction with hollow center
- Easiest type construction to splice

ANCHOR LINES

Attwood offers anchor lines in different materials and construction types. Our twisted nylon construction is strong, hangs straight and resists kinking. It can also be spliced, making it a favorite for the seasoned boater. Solid braided nylon lines are stable round cords that will not flatten out and will maintain a soft hand and flexibility throughout its life. We also offer a complete line of polypropylene anchor lines that are sure to meet the needs of any boater.

DOCK LINES

Attwood has a selection of dock lines to meet the boater's needs for securing their boat to a dock or to other boats when rafting. Whether in nylon or polypropylene, we have dock lines in the most popular sizes and styles. Our nylon dock lines are the strongest and most durable lines available. Plus they are resistant to the degradation effects of UV rays.

Our polypropylene dock lines float – which is a real plus when working around the dock or out in the water. All Attwood dock lines are pre-spliced at one end.

FISHING ROD HOLDERS & ACCESSORIES

"Sure Grip" Steel Rod Holders & Mounting Bases

Attwood's line of "Sure Grip" Steel Rod Holders are the perfect complement to our molded Pro-Series and Heavy-Duty Adjustable rod holders. They are designed for drift fishing, pan fishing, crappie, and more. Make Attwood your single source for all types of rod holders!

The 3/8" diameter coated steel rod is tough, strong, and corrosion-resistant. U.V. resistant plastic coating protects the rod butt and handle. And the exposed stem and wing nut are stainless steel for years of corrosion-resistant use.

Attwood "Sure Grip" mounting bases fit a variety of mounting surfaces including rails. Constructed of extruded aluminum.

ECOBLAST Rechargeable Air Horn & Mini Pump

Our chemical free EcoBlast Air Horns allow for thousands more blasts than traditional air horns. Instead of throwing the can away when it runs out, you simply recharge it with our High Pressure Mini Pump, a bicycle pump or service station pump. In seconds the Eco Blast refillable air horn is again ready to emit a powerful signal that meets all USCG requirements. Our EcoBlast horns also operate in all types of weather and temperature extremes and can be safely stored or used near a heat source. They work in any position and leave no rust rings on surfaces. Great for boating, biking, hiking, camping and sports enthusiasts.

11804, 11805

— Can be stored indoors or outdoors and used in all types of weather.

ECOBLAST Rechargeable Air Horn

Air Horn, Canister & Mini Pump Kit includes rechargeable air horn can, removeable trumpet and high-pressure mini air pump. *Pin not included.*

Air Horn & Canister Kit includes air horn can and removeable trumpet. *Mini Air Pump not included.*

11806

The Refill Valve lets you recharge using the included High Pressure Mini Pump, any bicycle pump, service station air pump, or air compressor.

Optional High Pressure Mini Pump with Pin available for unlimited refilling of your EcoBlast Air Horn or sporting equipment!

In-Line Fuse Holders

In-Line Fuse Holders with Spare Fuse Storage

Convenient in-line, over-current protection. For 12-Volts D.C. only. Waterproof holders for 1/4" x 11/4" fuses. Case is heat-resistant for high amperage conditions. Push-together case is non-breakable, molded plastic with 8" wire loop. Includes one fuse.

In-Line Fuse Holders

Molded of heat resistant non-breakable plastic. "Push together" type is splash resistant. The fuse holder has spare fuse compartment. Supplied with two nickel plated brass fuses.

In-Line Fuse Holders / ATO-ATC

Water resistant. Easy to install, easy to change ATO-ATC fuse holder. Used in most recreational vehicles. Comes with cap to protect fuse. Brass electrical contacts. Fuse included.

TRAILERING PARTS & ACCESSORIES

Hitch Ball, Chrome-Plated Steel

High-quality hitch balls for Class I and II loads. Chrome-plated solid steel with extra-long, 2"-high collar. Includes lock washer and nut.

Class	Category	GVWR Maximum	Tongue Weight	Ball Diameter
I	Light-duty	2,000 lbs.	200 lbs.	1-7/8"
II	Regular-duty	3,500 lbs.	350 lbs.	2"

Note: GVWR=Gross Vehicle Weight Rating (weight of the trailer plus boat and contents)

Description	GTW Capacity	Ball Diameter	Shank Diameter	Shank Length	Bulk Packaging	Aftermarket Packaging**
Class I	2,000 lbs.	1-7/8"	3/4"	1-9/16"		11081-7
Class II	3,500 lbs.	2"	3/4"	1-9/16"		11083-7

11081

Trailer Safety Chain

Connects the trailer tongue to the trailer hitch on the towing vehicle for security and safety. Meets SAE specifications. Welded solid steel with bright zinc-plated finish and hooks at both ends. Two chains required per trailer.

Description	Specifications	Bulk Packaging	Aftermarket Packaging**
Class I Safety Chain	47" L x 7/32" dia.	—	11009-5
Safety Chain with Spring Clips	47" L x 7/32" dia.	—	11012-7

Submersible Trailer Light Kit

Complete kit includes a pair of 8-function stop/tail/turn lights, wiring harness, and license plate bracket. Applicable to trailers under 80" wide. Ideal for utility, snowmobile, camping, motorcycle, and boat trailers. The design conforms to applicable US FMVSS and Canadian CMVSS safety standards.

Description	Bulk Packaging	Aftermarket Packaging**
Submersible Kit	—	14060-7

14060

Low Profile Submersible Trailer Light Kit

Low profile for trailers over 80" wide. The complete kit includes two multi-function lamps, wiring harness, license plate bracket and mounting hardware. Ideal replacement lights for most boat trailers. Conforms to applicable U.S. FMVSS and Canadian CMVSS safety standards.

Description	Bulk Packaging	Aftermarket Packaging**
Low Profile Submersible Trailer Light Kit	—	14063-7

14063

** -5 = Poly Bag, -7 = Clamshell

Side Marker Trailer Lights

Red or amber incandescent lights with an acrylic lens and ABS housing. Includes 18-gauge wire socket assembly, pigtail, seal and screws. Meets SAE AP2.

Description	Bulk Packaging	Aftermarket Packaging**
Amber	—	14061-6
Red	—	14062-6

Trailer Adapters

Connects auxiliary, taillights, ground, left, right and stop.

Description	Bulk Packaging	Aftermarket Packaging**
7-to-5 way connector	—	14134-7
7-to-4 way connector	—	14135-7

Trailer Wiring Harness/Connectors, 4-way Flat

The most popular 4-way flat wiring harness kit for vehicles and trailers. Copper-stranded, color-coded wire and plastic molded terminals with four-prong trailer plug or vehicle socket. Both ends have 18" plug wire and 48" socket wire.

Description	Bulk Packaging	Aftermarket Packaging**
18" plug and 48" socket	—	7663-5
48" socket	—	14017-3
12" plug	—	14020-3

Complete Trailer Wiring Kit

Kit Includes: (1) Receptacle and harness, 4 ft. (1.2 m), (1) Plug and harness, 25 ft. (7.6 m), (4) Blue quick connectors and (8) Trailer wire attachment clips.

Description	Bulk Packaging	Aftermarket Packaging**
Complete Wiring Kit	—	7621-7

Trailer Light Circuit Testers

The light indicators on this inline circuit tester show which circuit (taillights, ground, left-or-right signal) is having problems.

1500 lbs. capacity, Dual wheel	12"	26"	—	11126-4

Trailer Jack Wheel Stop

For use with most trailer jacks with wheels

Description	Bulk Packaging	Aftermarket Packaging**
Wheel lock	—	11440-2

Trailer Winches

Many factors affect the capacity of a winch in pulling a boat. As a rule of thumb, winches may be used to trailer boats up to two times the winch capacity. For example, a 1200-lb. capacity winch may be used to load boats up to 2,400-lbs.

Caution: Attwood winches are not intended for use as hoists; for lifting, supporting or transporting people; or for lifting loads over people.

Dual Drive Winch—2,000 pound

Dual drive enhances the pulling capacity by distributing the load equally to two sets of gears. Eliminates frame torque. 2,000-lb. load capacity with 4.1:1 gear ratio. Three-position pawl provides forward, neutral and reverse operations. Black EDC finish. Molded, textured roller grip. Includes 2" x 20' nylon web strap with zinc-plated snap hook.

Single Drive Winch—1,200 pound

Solid gear construction with precise gear tooth engagement. 1,200-lb. load capacity with 4.1:1 gear ratio. Three position pawl provides forward, neutral and reverse operations. Black EDC finish. Molded, textured roller grip. Includes 20' nylon web strap with zinc-plated snap hook.

Description	Type	Gear Ratio	Bulk Packaging	Aftermarket Packaging**
2000 lb. with 2" W x 20' L nylon strap	Dual	4.1:1	—	11195-4
1200 lb. with 2" W x 20' L nylon strap	Single	4.1:1	—	11149-4

See tie downs on Pages 161-162 for replacement winch straps, cable and rope.

BOW STOPS & ROLLERS

Road Ready bow stops, rollers, and roller brackets provide protective support for your boat's hull while it's on the trailer, and allow easier launching, centering, and retrieval of the boat. This assortment includes rollers, bow stops, and steel roller brackets. Rollers and bow stops are available in polymer or rubber.

Rubber Rollers	Polymer Rollers
Non-marring prime rubber compound	Will not mark or discolor your boat
Economically priced	Resist cuts and abrasions
Original equipment replacements for most trailers	Have superior durability, to outlast ordinary rollers

Bow Stop, Polymer

Non-marring, resilient bow protection. Smooth finish allows easy centering. Polymer bow stops are rugged and dependable. Impervious to sunlight, chemicals, and fuels.

Dimensions	Opening Size	Hole Diameter	Bulk Packaging**	Aftermarket Packaging
2-3/4" H x 2-7/8" W x 3-1/2" D	3"	1/2"	11305-1	—

Bow Stops, Rubber

Transom Savers

We've got you covered

A lifted outboard puts hundreds of foot-pounds of pressure on the transom — especially during trailering

Protect your boat and engine

- Support the cantilevered weight of the motor
- Stabilize engine and steering mechanism when trailering

The Attwood Difference

- Tough components — You'll get long life from our adjustable toggles with replaceable rubber pads
- Innovation — Our shock absorbing spring-loaded transom saver, is designed to reduce damaging effects of road shock. Works great for motors with hydraulic trim/tilt

TIE-DOWN STRAPS

Quick-Release Transom Tie-Down Straps

When properly secured to transom eyes and trailer, transom straps reduces vertical and lateral movement to safely secure the boat to the trailer. They also reduce bouncing of the boat on the trailer pads or rollers. Available in 2" width for larger trailerable boats and 1" width for lighter boats.

Webbing: Strong webbing. Resists rot, oils, gasoline, and most chemicals.

Buckle: Quick-Release (Over-Center) buckle. Strong and secure, yet easy to use. Quicktightening. Cinch tight and secure by depressing buckle handle. Release by lifting the buckle handle.

Hook: Vinyl-Coated S-Hook to prevent scratching boat or trailer finish. Corrosion resistant. Heavy gauge.

Special Features: Protective pad behind buckle to prevent marring and scratches on gel coat and painted surfaces. Hook-N-Loop closure secures the buckle handle in the locked position.

Description	Length	Bulk Packaging	Aftermarket Packaging**

Quick-Release Gunwale Straps

Gunwale straps secure the entire aft section of the boat over the gunwale to the trailer and restrict vertical movement while on the road.

Webbing: Strong webbing. Resists rot, oils, gasoline, and most chemicals.

Buckle: Quick-Release (Over-Center) buckle. Strong and secure, yet easy to use. Quicktightening.

Cinch tight and secure by depressing buckle handle. Release by lifting the buckle handle.

Hook: J-Hook with snap-closure for secure, easy attachment. Electrostatic Discharge Coating (EDC) finish to prevent corrosion. Heavy gauge.

For ratchet straps used in gunwale applications, see the General Purpose Utility Strap section on the following page.

Bow Strap

Bow straps secure the bow of the boat to the forward trailer member or tongue, and restricts vertical and backward movement of the boat on the rollers or pads. Reduces load on winch and winch strap. Use bow straps with transom or gunwale straps to provide a complete, secure tie-down system.

Webbing: Web fiber is strong and has excellent elasticity to absorb sudden shock loads. Resistant to abrasion, rot, oils, gasoline, grease, and many other chemicals.

Buckle: Cam buckle with push-button release. Quick and easy to use. Springloaded lock secures the web strap. Zinc-alloy plated finish. Sewn web end prevents the strap from pulling out of the buckle.

Hook: Contains one vinyl-coated S-Hook for attachment to bow eye. Vinyl coating prevents scratching boat or trailer finish. Corrosion-resistant. Heavy gauge.

Special Features: Strap end contains a sewn-loop to create an adjustable, slip harness for attachment to trailer tongue or frame.

Description	Length	Bulk Packaging	Aftermarket Packaging**
1" Wide	3 ft.	15240-1	15240-7

3-Point Tie-Down Strap

3-Point Tie-Downs secure the transom of personal watercraft to the trailer with one strap. The strap contains three S-hooks; the two, sewn end hooks attach to trailer and the single, “free-floating” hook attaches quickly and easily to the stern of the PWC.

Webbing: Web fiber is strong and has excellent elasticity to absorb sudden shock loads. Resistant to abrasion, rot, oils, gasoline, grease, and many other chemicals.

Buckle: Cam buckle with push-button release. Quick and easy to use. Spring-loaded lock secures the web strap. Zinc-alloy plated finish. Sewn web end prevents the strap from pulling out of the buckle.

Hook: Contains three, vinyl-coated S-Hooks to protect the finish of the boat and trailer. Floating S-Hook allows for easy installation.

Description	Length	Bulk Packaging	Aftermarket Packaging**
1" Wide	94"	15241-1	15241-7

General Purpose Tie-Down Straps

General purpose straps are designed for a variety of applications. Use to secure cargo, motorcycles, bicycles, boats and other loads. Available in a variety of lengths and styles.

Webbing: Excellent elasticity to absorb sudden shock loads. Resistant to abrasion, rot, oils, gasoline, grease, and many other chemicals.

Buckle: Easy-to-operate ratchet handle cinches and locks the web strap. Quick release; resists jamming from side loads. Zinc-alloy plated finish. Sewn web end prevents the strap from pulling out of the buckle.

Hook: J-Hook with snap-closure for secure, easy attachment. Electrostatic Discharge Coating (EDC) to prevent corrosion. Heavy gauge.

Winch Straps

Winch straps, cables, and ropes are available to fit most winches, loads, and applications. A complete selection of winch products to meet every customer need and a variety of price points. Selecting a winch strap, rope or cable: NMMA, SAE, and BIA Standards require the minimum breaking strength of winch cable, rope, strap and hook be at least 1.5 times the rated straightline pull of the winch. For example, if a winch rope has a breaking strength of 1,500 lbs., it can only be used on winches rated up to 1,000 lbs. All Attwood winch cables, ropes and straps are rated for the winch on which they can be installed. Winch ropes, strap, and cable should have a minimum of four (4) complete wraps around the winch drum in the most extended position for launching or retrieving the boat.

You can depend on Attwood winch straps. They're easy to install, and prevent tangling on winch drum. Built to be strong and durable. UV-resistant webbing with a special, heavyduty, forged steel, snap-hook. The extra-long throat is designed for easier attachment to bow eyes on boats. Two "End-Strap" styles are available for easy, secure attachment to the winch drum. Rated for winches up to 2,000 lbs.

Webbing: Polyester webbing is one of the finest web strap materials available. Polyester does not stretch and offers excellent resistance to ultraviolet degradation from sunlight.

Strap End-Styles: Two styles available (1) Cut-End, and (2) Sewn-Loop End.

Hook: Heavy-duty forged, zinc-plated steel snap hook. Spring-loaded closure for secure attachment. Extra-long throat for easy attachment.

Description	Length	Bulk Packaging	Aftermarket Packaging**
Cut-end	15 ft.	11136-1	11136-7
	20 ft.	11137-1	11137-7

Winch Ropes

Nylon Winch Ropes

Durable winch ropes are 3/8"-diameter nylon. Forged, zinc-plated steel hook. Strong, lightweight nylon absorbs shock and resists abrasion, mildew, and damage from most chemicals. For winches rated up to 1,200 lbs.

Poly Winch Ropes

Twisted polypropylene 3/8" diameter winch rope is economical, versatile, and easily spliced. Resistant to rot and mildew and is U.V. stabilized. For winches rated up to 1,200 lbs., not intended for other uses
